Alverno College
Office of the President

Records of the Sr. Joel Read Administration, 1968-

Alverno A2.2

50.1 Cubic ft. (125 Archives Boxes)

SCOPE AND CONTENT NOTE: The collection contains records of the President's Office created during the tenure of Sr. Joel Read dating from 1968 to the present. The collection largely consists of correspondence, meeting minutes, grant files, committee files, personnel files, program files, activity files and a large variety of subject files. The records concern accreditation, general policy issues, plans for expansion, financial issues, consortia memberships, staffing and other administrative affairs. College programs and departments documented in depth in the collection include: Assessment Center, Alverno Campus Elementary School, Alverno Alumnae Association, Weekend College Program, Faculty Senate, Alverno College President's Council, and the Alverno College Board of Trustees. The records also contain numerous files concerning the development of the Alverno College Weekend College Program and the Alverno Ability-Based Curriculum.

ARRANGEMENT: The files are arranged alphabetically by personal name, by name of Alverno Department, or by subject; and then chronologically. Files may contain a variety of materials including correspondence, memoranda, reports, or newspaper clippings.

ADMINISTRATIVE HISTORY: The President's Office was created in 1948 when three School Sisters of St. Francis Institutions: Alverno Teacher's College, Alverno College of Music and Sacred Heart School of Nursing began the process of merging to form Alverno College. The first president was Sr. Augustine Scheele who held that position until 1968. In 1968, Sr. Joel Read became Alverno's second president. During her administration she has overseen many changes and innovations at Alverno including the following: the creation of the Research Center on Women, the Career Development Center, and the earliest incarnation of the Alverno Childcare Program in 1970; the establishment of the Off-Campus Experiential Learning (OCEL) Program in 1971; the institution of Alverno's ability-based curriculum and the Assessment Center in 1973; the opening of the Center for Instructional Communication (CIC), the opening of the Kellogg Conference Center (the result of a $100,000 Kellogg Grant), and the establishment of the Business/Management Department in 1976; the creation of Weekend College and the Professional Communication Department in 1977; the opening of the Telesis Institute in 1980; the launching of the Alverno Institute in 1993; and finally, the launching of Alverno's first Masters program--a Master of Arts in Education for practicing teachers and instructional designers in 1996.
