ALVERNO COLLEGE
Milwaukee, Wisconsin

ABILITY-BASED LEARNING PROGRAM

The curriculum is an ability-based, outcome-oriented approach to liberal arts/professional education. To earn a degree at Alverno College a student demonstrates the eight broad abilities listed below, at increasingly complex levels, in general education and in her areas of specialty.

These abilities constitute liberal education at the college and undergird and infuse advanced study in the disciplines and professions. Within the curriculum of a given major, the student develops the abilities according to the distinctive requirements of the disciplines and professions.

Throughout her course of studies, the student participates in performance-based assessments and learns to assess herself. Her progression toward a degree is based upon these assessments, both internal and external.

With demonstrated achievement at each level the student receives one level unit. For a Bachelor’s degree, in addition to 32 units awarded when the first four levels of each of the eight abilities have been demonstrated, the student must achieve another 8 units, at least one of them at level 6. Advanced levels of any given ability require more time and effort to achieve than lower ones. For an Associate of Arts degree in General Studies, a student demonstrates her ability at the first four levels in each of the eight areas.
